PLEASE NOTE

The symbol, ¶, has been used as a suffix to the official vernacular name of birds listed in "Checklist of the Birds of Hawaii", by Robert L. Pyle, published in 'ELEPAIO, Volume 44, Number 5, November 1983. Where appropriate, the accepted Hawaiian name of the bird, from the same source, follows in braces, {}. There have been numerous changes in names of birds between July 1975, when this index first applies, and November 1983, when Pyle's list was published. An attempt has been made to insure that names used in the original text have been correctly cross-referenced in this index. The compiler offers his apologies to those who may be led astray by incorrect referrals.
